Preface.

This catalogue contains the Foreign portion of the collection of the late Mr. T. B. Clarke-Thornhill, and many beautiful and rare pieces will be found therein.

There are also a few English Coins at the end of the Sale, which were returned by the British Museum too late for inclusion in the first portion of the Sale.

Most of the finest and more desirable pieces have been illustrated in the fourteen plates attached to this catalogue.

Although the late Mr. Clarke-Thornhill bequeathed his fine Numismatic Library to me, I thought that collectors would like the opportunity of securing a book coming from such a famous collection, so I have decided to offer a few at the end of the Sale.

PRICED CATALOGUES.

AFTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is . . . .

ONE GUINEA per annum.
